

Fueling Finance Risk Transformation

Business executives need access to better data to drive improved decision-making, financial risk automation, and internal audit transformation.

However, many financial processes are still stuck in the 20th century. According to a 2017 CFO indicator Report, nearly 80% of corporate finance teams' time is spent manually gathering, verifying, and consolidating data, leaving only about 20% for higher-level analysis and decision-making.

Leading companies still rely on manual sample audits and detailed audit rules in their ERP and travel expense management systems to find defects and errors. However, these approaches can significantly increase finance teams' workloads — without mitigating risk or finding much fraud or waste.

There's a better way. Oversight Insights On Demand® provides an automated risk management and compliance monitoring platform that mitigates risk, prevents cash leakage, and optimizes your business processes.

The Power of Holistic Financial Risk Management

Hundreds of leading businesses rely on Oversight to automate auditing and compliance monitoring processes — with 50% to 90% less effort, freeing up your finance and internal audit teams to focus on more strategic and higher-value tasks.

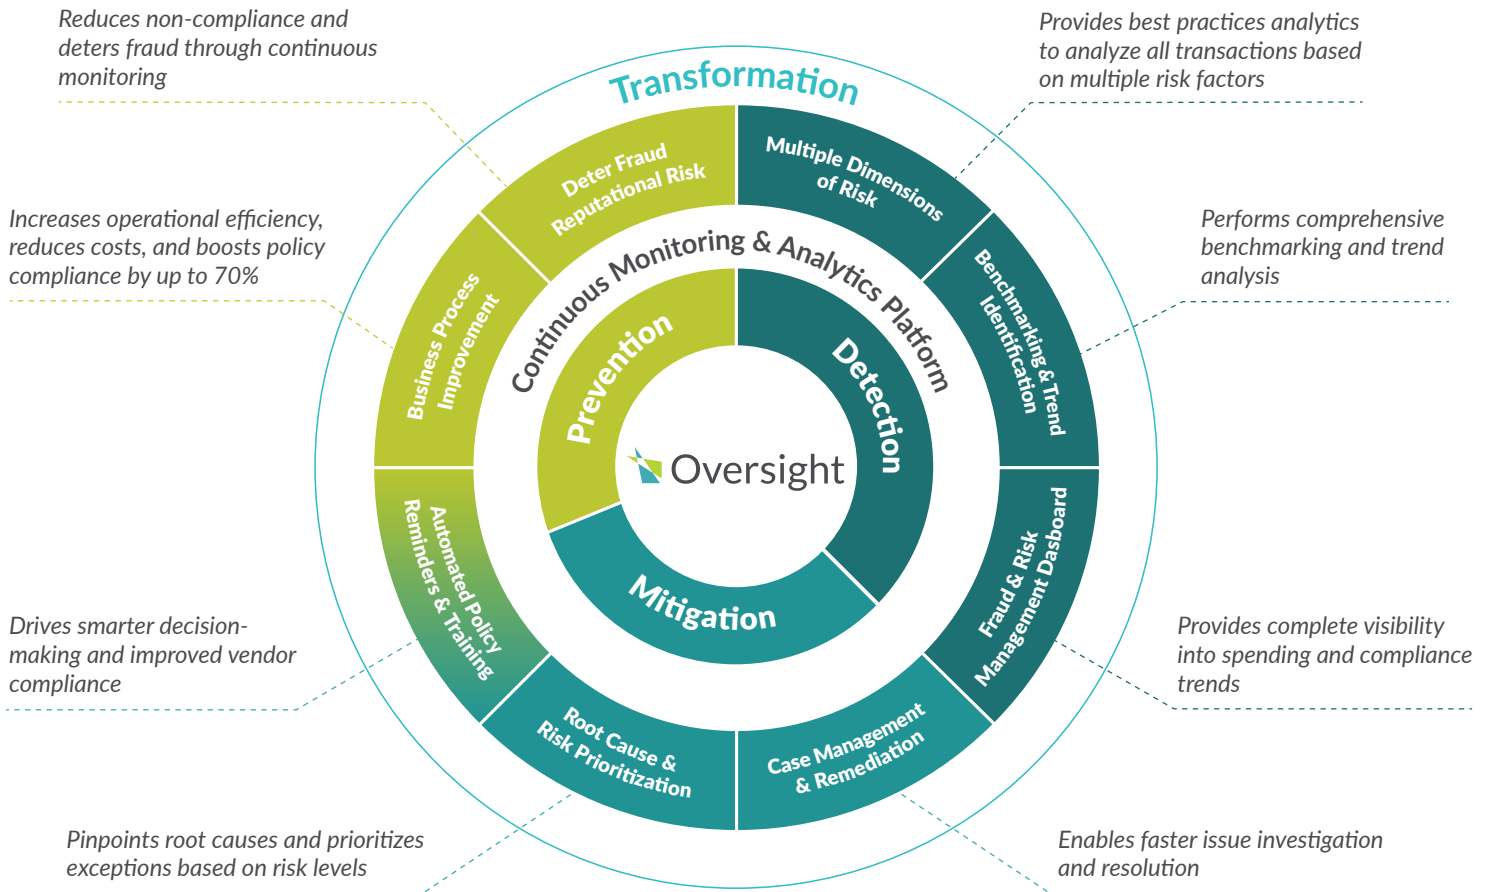

Oversight built its Artificial Intelligence-powered analytics platform based on an integrated approach to financial risk management. Our Insights On Demand solutions analyze 100% of your transactions, running hundreds of parallel tests to uncover hidden fraud, waste, and misuse in your financial spending. Our case management and remediation workbench pinpoints the root causes of exceptions and captures the supporting evidence you need to mitigate risk, automate compliance, and prevent cash leakage.

Built-in communications and workflow functionality lets your team collaborate and communicate findings with various stakeholders. Proactive policy education and built-in communications functionality enable you to drive smarter decisions and boost compliance by up to 70%.

Oversight Insights On Demand

AI-Powered Platform for Automated Risk Management and Compliance Monitoring

Since 2003, Fortune 1000 companies and government agencies have relied on Oversight's automated risk management and continuous monitoring platform to help them transform the way they detect, mitigate, and prevent financial risks. Our AI-powered Insights On Demand solutions for Travel & Expense, Purchase Card, and Procure-to-Pay help organizations streamline processes, reduce costs, and improve operational efficiency.

About Oversight

Since 2003, Fortune 1000 businesses and government organizations have trusted Oversight to analyze over \$2 trillion in annual payments. Powered by Artificial Intelligence and machine learning technologies, our automated risk management and compliance monitoring platform detects and mitigates fraud, waste, and misuse in financial spending, reducing auditing effort by 50% to 90% and improving policy compliance by up to 70%.
