

Purchase Card

Oversight: A Lens Into Your Enterprise Spend Risk

Oversight's audit and risk management platform consolidates spend data from any source system and uses the power of AI to automatically analyze 100% of your transactions – T&E, P-Card, Fleet, Payables, e-Procurement, and General Ledger entries. By evaluating spend in aggregate, you can identify financial, compliance, and fraud risk no matter where it resides.

Oversight reduces non-compliant spend by 70% and maximizes audit efficiency by as much as 90%, while improving cash flow across your organization.

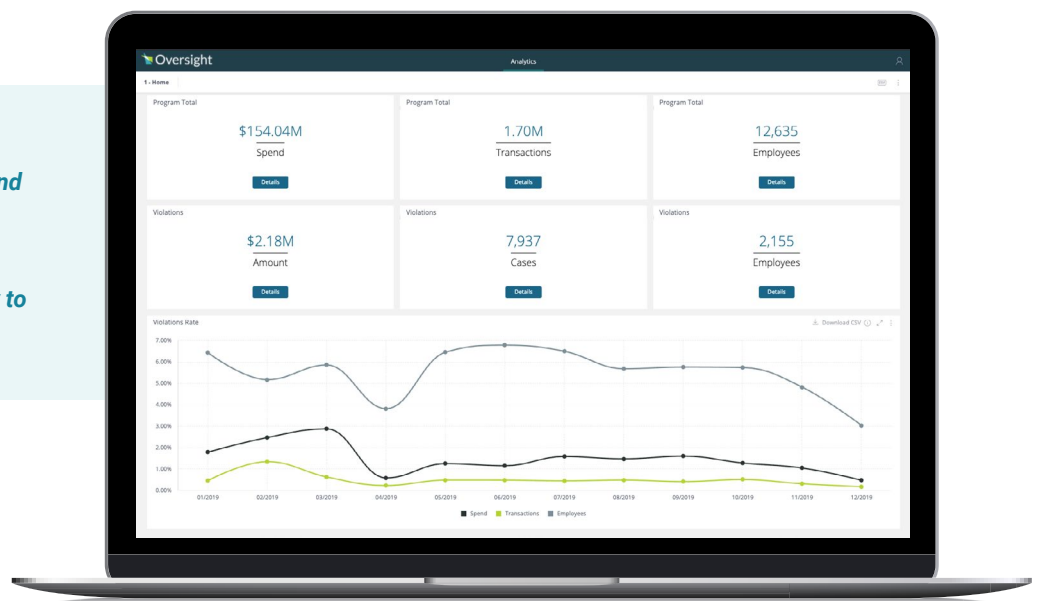

Strengthen P-Card controls and compliance with continuous monitoring

Purchasing card programs streamline procurement processes, helping reduce costs by an average of \$62.30 per transaction, according to NAPCP. Without adequate financial controls, however, organizations are often reluctant to expand P-Card programs for fear of widespread misuse.

With Oversight, you can put those concerns aside. Our P-Card solution uses AI to continuously monitor 100% of your transactions and immediately detect fraud, misuse, and other non-compliant spending. As a result, you can quickly address any risky purchases, and you have the visibility needed to establish more effective controls.

Oversight's integrated dashboard gives you visibility into P-Card spend by business unit, employee, spend category, merchant and more. All high-risk transactions are also in view and ranked by highest priority to guide your resolution efforts.

Mitigate P-Card Risk

- Leverages patented and proven analytics to detect non-compliant or suspicious purchasing patterns by employee, business unit, merchant, MCC, spend category, and more
- Finds hidden spending patterns to uncover fraudulent activity and habitual misuse
- Identifies root causes of non-compliant transactions to stop recurrence and help you improve policies

Reduce P-Card Policy Violations

- Indicates need to coach cardholders on policy, which helps reduce non-compliant spend by 70%
- Provides one-click access to address repeat offenders who are responsible for as much as 95% of spend risk
- Increases visibility into purchasing and compliance trends to pinpoint program strengths and weaknesses

Maximize Cost Savings and Card Rebates

- Helps you better understand and influence cardholder behavior to improve P-Card compliance
- Maximizes spend with preferred suppliers and decreases out-of-pocket spending by employees
